About This Game

Incarna: Broken is a time-limited adventure in virtual reality.
Explore, solve *puzzles*, *fight* against enemies with your bow: you have to succeed in the limited time you have! Or retry...

A strange AI is causing our training to malfunction!
Usually made for groups of 3 to 4 explorers, our training field in the other world has been taken over by a malicious AI, who changed everything inside and broke it.
This time, you will be ALONE in order to solve, in a very limited time frame, the challenges which lie before you.
Prepare yourself to explore, solve puzzles, but also, to fight!
Then, maybe, you will be ready for our multiplayer training.
