- 38 civilizations to take control of and lead to victory
- Fast strategic action as you battle to control the largest number of regions before the end of times
- New civilizations, globe shapes, skies and atmospheres to unlock
- Dozens of achievements and missions to complete

=====

Rapture - World Conquest is a fast paced real-time 4x wargame that puts you in the celestial shoes of a jealous god. Guide your followers through the ages and vanquish the unbelievers in the surrounding kingdoms. Send your armies to take over regions and expand your realm.

As your followers rise in numbers their adulation will provide mana allowing you to unleash devastating miracles – lightning storms, hurricanes, floods and other death from above. Conquer the globe and as the supreme deity you will lift your people up to heaven and leave your remaining enemies to the apocalypse.

Domination is your ultimate goal. Should you risk all on military warfare? On science and technical achievements? Or improve farming to boost productivity? Or perhaps your followers should spend their time praising you, giving you the power to unleash more miracles.

Inspired by classic god games such as Civ and Populous, reinvented for short match times on mobile. There are dozens of missions, achievements and unlockable content.

You are a jealous god, wipe out the minions of your rivals, conquer the world and rapture your people.

I've played this game for a couple years now, when it was first on mobile. It's very fun and fast paced gameplay with a variety of civilizations to choose from and map customizations. Overall a fun game with or without friends.
